3. **Body Health** (Rates depend on the session's treatment)
With our Sculptor 301 you can profit from:
 - a. **Cavitation 2.7**, which is safe, painless, non-invasive, selective and long lasting.
High frequency cavitation 2.7 MHz at 45watt transforms the cellulite into deglyceride. Through micro bubbles that are smaller than the ones generated by low frequency, these micro bubbles implode due to partial pressure changes and eliminated through the lymphatic system and urine. It's the most innovative and effective method on the aesthetic market medicine: up to 2 centimeters of corporal volume can be reduced. The cavitation 2.7 suitable for those patients who want to get rid of fat deposits s in buttocks, inner and outer thighs abdomen, hips, pectoral area (men) and sub gluteal fold. Also, it corrects possible asymmetries after a liposuction.
 - b. **Dermo Health (Vacuum therapy)** It makes the elimination of toxins and deposits excess body fat easier, it's capable of contouring the body and reduce the volume, heightening lipolysis at the deepest fat levels. Unlike other vacuum therapies on the market, this therapy uses a high-revolution

axial turbine (17500 rpm) and it can reach flows of 35lts/sec. and constant suction of 180 mbar.

- c. **Diamond Stick** is the latest technology in microdermabrasion that consists in a non-invasive painless mechanical peeling that eliminates the exterior layers of cells in the skin, spots, furrows and acne scars. Micro Dermabrasion is applied by using Diamond Sticks exclusively created by Body health, which are hypoallergenic disposable heads made of tungsten carbide. As the material is disposable, it's 100% hygienic and the abrasion properties are preserved in each new application.
 - d. **Dermoleds** are red lights emitted by diodes, exclusively developed by Body Health, to apply red light therapy. It's a highly effective non-invasive rejuvenation method. The light of Dermoleds interacts with the cells and stimulates them to produce Collagen and Elastin.
 - e. **New Dermoporation with Virtual Meso-Therapy (VMT)** Quality and effectiveness with guaranteed results, aware of the lack of effective products for the application of Virtual Mesotherapy. The most complete range of products to treat corporal and facial disorders. Dermoporation is electroporation + electrophoresis with VMT. New disposable Roll On Heads comes with two sizes for Body and facial. VMT products include:
 - Tightening VMT
 - Anti-Wrinkle VMT
 - Whitening VMT
 - Anti-cellulite VMT
 - VMT of the Blood Vessels
4. **Natural youthfulness through light Seecret** (*Rates depend on the session's treatment + Free lotions before/after*)
- a. Seecret anti-aging activates the skin's own Collagen and Elastin.
 - b. Small lines disappear; wrinkles on the overall body are reduced.
 - c. The skin becomes soft and smooth again, it feels totally changed and gives a feeling of physical well being.
 - d. Special Vitamin D light results in a tangible vitality and protection against bones disease.
 - e. Accent light is focused on the sensitive areas such as: face, neck and hands.
Note: The first results of skin improvement can be seen after a few weeks of Seecret anti-aging treatment.

We wish you a healthy & enjoyable time at ClassSport Gym & Spa!
